

Salzburg, October 2007

Dear Colleagues,

The second GENESKIN training course on genodermatoses in Austria is held from October 10<sup>th</sup> to 12<sup>th</sup> 2007 in Salzburg. This course will supply the participants with state-of-the-art knowledge on genetic basis, management and treatment of genodermatoses such as epidermolysis bullosa (eb) and ichthyosis. The venue will be the *eb house Austria*, a facility dedicated to the care of eb-patients. Since this course is partly sponsored by the EU, we are able to provide this course without course fees. For colleagues from Eastern European countries also travel grants will be provided.

If you have any further questions, please do not hesitate to contact our office (tel.: 0043-662-4482-3110; fax: 0043-662-4482-3125; web-site: [www.eb-haus.eu](http://www.eb-haus.eu)).

Welcome to Salzburg!

Best regards

Johann Bauer
